Marker is made of zinc giving ample room for writing or printing. The standard is of No. 8 galvanized wire, 30 in. long. It won't rust.

The zinc label is held firmly to the standard and the label may be tilted by bending the wire so it is visible without stooping. Names easily applied with metal marking pencil and writing is permanent.

Simple, Inexpensive, Neat

HERE is a safe, permanent way of marking your plants. Inexpensive too. Ordinary stakes cost nearly as much and they have to be replaced. One mistake avoided will repay you for all they cost. We have used them in our own gardens for a number of years and have developed this as the most satisfactory and permanent method possible. Especially desirable for iris, peony and gladioli plantings and nursery stock. Order sample lot today!
